% Research	0	0	0	0	0	5	5	0	0	0	5	10	0

**Notes:** Night Float/Ambulatory rotation consists of alternating weeks between Night Float and Ambulatory Neurology for total of 2 weeks Night Float, 2 weeks Ambulatory. Neurology Inpatient and Neurology Consult rotations are considered “core” rotations and are on inpatient services. Same rotations at each site are batched for schematic purposes but in practice will not be sequential and will not result in gaps of  $\geq 5$  weeks in continuity clinic.

Possible Electives: Epilepsy Site 1 & 2  
Neuromuscular Site 1 & 2  
Multiple Sclerosis Outpatient Site 2 & 3  
Movement Disorder Outpatient Site 2 & 3  
Neurovascular Site 2
